AND ARCHITECTURAL REVIEW

*This elegant master bathroom is so spacious that in order to include all the exquisite details, the reflection of the opposite side of the room is captured in the mirror of the vanity on the other side. Mouldings, corbels and plumbing fixtures add to the character of this luxurious master bath.*

Serving builders and homeowners of the community since 1957, Smith & DeShields, Inc., a family-owned architectural supply business opened its doors in Boca Raton, Florida and has since opened showrooms in Jupiter and Naples, Florida. The company has grown and earned the reputation as one of South Florida's premier suppliers of unique and distinctive architectural products. To better serve the growing population of Palm Beach County, Smith & DeShields is opening a brand new state-of-the art facility encompassing approximately 28,000 square feet in Jupiter Commerce Park. The opening is slated for mid-August/early September 2006.

Known for the best in style, selection, and service, Smith & DeShields specializes in mouldings, interior and exterior doors and decorative hardware. Bath and plumbing fixtures are also offered in their Boca location.

Moulding, trim and architectural accents add character to any room (including bathrooms as evidenced in the above photo). With over 350 different profiles, designs and sizes, Smith &

DeShields boasts the largest in-stock inventory in South Florida.

New and improved lines of impact-rated doors are featured in their showrooms, many that are Florida State and "Miami-Dade" certified. Master Security Doors, the only Miami-Dade Certified Doors that can withstand up to 250-mile-per-hour winds, are among the new lines. When installing an impact-rated system, it's important to consider the entire system (door, frame and hardware). The entire system's strength is crucial in maintaining the integrity of the system; a weakness in any part can cause damage to the home.

To enhance the look, choose from an array of exquisite, distinctive lines of hardware from manufacturers such as Baldwin, Ashley Norton, Omnia, Schlage, Rocky Mountain and Emtek.

No other showroom features the unparalleled selection and brands of architectural products, many of them local exclusives to Smith & DeShields.
